

Extra Money in our Members' Pockets

Members who have a loan with BMCU will be receiving a surprise in their share account at the end of the year! BMCU is giving back a 3% rebate of loan interest paid in 2017. This means your credit union is paying its members back over \$12,000!

For those with a loan, a rebate will be deposited into your share accounts as part of our loan rebate program. This rebate is not taxable, because we are simply giving you YOUR money back. Rebates apply to all loans and mortgages in good standing.

This is just another example of the benefits of being a BMCU member and the credit union giving back to our members. We thank you for another solid year of growth and look forward to continued success.
